Home About Skills Projects Contact

Hi, I'm Ashritha B M

Aspiring Web Developer & HTML/CSS Intern

Welcome to my personal portfolio website where I showcase my skills and academic projects.

View My Projects

About Me

Detail-oriented BCA student at Kuvempu University (2024-2027) with a strong foundation in programming and web technologies. Seeking to apply database handling, web development, and problem-solving skills to real-world IT

projects. Based in Chikmagalur, Karnataka, India.

My Skills

HTML5 & CSS3 | Python Programming | DBMS & SQL | MS Office | Problem Solving

Projects

Country & Capital Information Webpage

Developed a structured HTML5 webpage listing countries and their capitals, using custom CSS3 styling to visually emphasize key capital city data.

Technologies: HTML5, CSS3

Interactive Form Validation System

Designed a JavaScript-driven validation script to securely check and verify user inputs—including username presence, minimum 6-character password length, and 10-digit phone number formatting—with real-time alert handling.

Technologies: HTML5, JavaScript, DOM Validation
